

"We strongly encourage all area employers, health care organizations and government organizations to participate in this research to help improve quality and rein in costs of healthcare."

Jerry Abramson
Mayor, Louisville Metro

Adewale Troutman, MD,
Director, Louisville Metro Public Health and Wellness

Please Participate

The Greater Louisville e-Health Survey 2007

- For the past 1 1/2 years, healthcare leaders from across the greater Louisville area have been exploring the possibility of establishing an electronic health record repository for the greater Louisville area.
- This system has the potential to improve quality and contain rising costs of care for everyone in the area.
- Your input will help us design the system to best meet your needs.
